ABOUT ME

AI/ML Engineer with hands-on experience building and deploying end-to-end machine learning systems. Skilled in Deep Learning, NLP, and Speech Processing using TensorFlow, PyTorch, FastAPI, and Streamlit. Currently working as an ML Intern at SoftCr8ors and previously completed an AI/ML internship at Innoverse, applying practical machine learning skills to real-world projects. Passionate about delivering production-ready AI solutions that bridge research and real-world impact.

WORK EXPERIENCE

AI/ML Engineer — ML Internship, SoftCr8ors

June 2026 – Present

- Built an AI Business Website Analyzer & Client Readiness Scorer, a full end-to-end ML pipeline with a Streamlit frontend for evaluating business website readiness.
- Designed and implemented the complete ML workflow — data preprocessing, model training, and deployment — with verified end-to-end predictions.
- Collaborated with the engineering team to deliver a production-ready client-facing tool.

AI/ML Engineer — AI Fusion Internship, Innoverse

18 Apr 2026 – 31 May 2026 (6 Weeks)

- Worked on applied AI/ML projects during a 6-week intensive internship, gaining hands-on experience across the machine learning pipeline from data preparation to model deployment.
- Applied Python, TensorFlow/PyTorch, and Scikit-learn to build and evaluate machine learning models under real project constraints and deadlines.
- Collaborated with mentors and peers, strengthening skills in problem-solving, technical communication, and production-oriented AI development.
- Internship certificate: View Certificate

PROJECTS

AI Business Website Analyzer & Client Readiness Scorer

github.com/hamzamunirml/Ai-business-website-analyzer

- Built a full ML pipeline that analyzes business websites and scores client readiness, with a Streamlit frontend and verified end-to-end predictions.

BidWise AI — Freelance Job Success Prediction

github.com/hamzamunirml/BidWise-AI-Freelance-Job-Success-Prediction-

- Built a system to predict freelance job success, training four models to F1-score ≥ 0.84 with full data pipeline and business insights reporting.

Resume Ranking AI

github.com/hamzamunirml/RESUME-RANKING-AI

- Developed a resume screening and candidate ranking app using TF-IDF vectorization with multi-job-description tab support, deployed on Streamlit Cloud.

Brain Tumor AI
github.com/hamzamunirml/Brain-Tumor-AI

- Built an end-to-end CT/MRI scan classifier and tumor detection pipeline using ResNet50, MobileNetV2, and a Custom CNN, plus a ConvNeXtTiny scan-type classifier, with a multi-page Streamlit web app.

AI-Powered Lead Generation Agent
June 2026

- Built an AI agent that scrapes online sources and uses ML scoring to qualify leads, then automates personalized outreach via CRM.
- Reduced manual research effort by 70% and increased conversions by 30%.

Production ML Monitoring System
May 2026

- Built a real-time monitoring system to track ML model performance (drift, accuracy, latency) in production using Prometheus and Grafana.
- Automated alerts for data drift and model degradation, reducing downtime and enabling faster retraining.

EDUCATION

BS Artificial Intelligence 2023 – 2027 (Current)
Khawaja Fareed University of Engineering and Information Technology (KFUEIT)

CGPA: 3.00 / 4.00

Intermediate in Computer Science (ICS) 2021 – 2023
Punjab Group of Colleges — Marks: 73%

Matriculation 2019 – 2021
Govt. Model High School — Marks: 77%

SKILLS

Technical Skills

Python
Machine Learning & Deep Learning
TensorFlow & PyTorch
Scikit-learn
Pandas & NumPy
Data Visualization & Analysis
FastAPI & Streamlit
Git & GitHub

Soft Skills

Problem Solving
Critical Thinking
Collaboration / Teamwork
Communication

Languages

English (Fluent)
Urdu (Fluent)
